

PageSpeed Insights

Mobile

66 / 100 Speed

Should Fix:

Reduce server response time

In our test, your server responded in 0.88 seconds.

There are many factors that can slow down your server response time. [Please read our recommendations](#) to learn how you can monitor and measure where your server is spending the most time.

Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 1 blocking script resources and 3 blocking CSS resources. This causes a delay in rendering your page.

Mobile

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

[Remove render-blocking JavaScript:](#)

- <https://anekdots.pro/engine/classes/js/jquery.js?v=26>

[Optimize CSS Delivery](#) of the following:

- <https://anekdots.pro/engine/editor/css/default.css?v=26>
- <https://anekdots.pro/templates/aneiki3/css/style.css>
- <https://anekdots.pro/templates/aneiki3/css/engine.css>

Consider Fixing:

Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

[Leverage browser caching](#) for the following cacheable resources:

- <https://anekdots.pro/templates/aneiki3/css/engine.css> (expiration not specified)
- <https://anekdots.pro/templates/aneiki3/css/style.css> (expiration not specified)
- https://anekdots.pro/templates/aneiki3/images/button_bg.png (expiration not specified)
- <https://anekdots.pro/templates/aneiki3/images/dashed.png> (expiration not specified)
- https://anekdots.pro/templates/aneiki3/images/footer_shadow.png (expiration not specified)
- https://anekdots.pro/templates/aneiki3/images/more_bg.png (expiration not specified)
- https://anekdots.pro/templates/aneiki3/images/purple_spot.jpg (expiration not specified)
- https://anekdots.pro/templates/aneiki3/images/site_bg.jpg (expiration not specified)
- <https://anekdots.pro/templates/aneiki3/images/sprite.png> (expiration not specified)
- https://anekdots.pro/templates/aneiki3/images/sprite_2.png (expiration not specified)

Minify CSS

Compacting CSS code can save many bytes of data and speed up download and parse times.

[Minify CSS](#) for the following resources to reduce their size by 2.6KiB (12% reduction).

- Minifying <https://anekdots.pro/templates/aneiki3/css/engine.css> could save 2.6KiB (12% reduction) after compression.

Optimize images

Properly formatting and compressing images can save many bytes of data.

[Optimize the following images](#) to reduce their size by 34.1KiB (50% reduction).

- Compressing https://anekdots.pro/templates/aneiki3/images/site_bg.jpg could save 33.2KiB (50% reduction).
- Compressing https://anekdots.pro/templates/aneiki3/images/purple_spot.jpg could save 958B (43% reduction).

5 Passed Rules

Minify JavaScript

Your JavaScript content is minified. Learn more about [minifying JavaScript](#).

Prioritize visible content

You have the above-the-fold content properly prioritized. Learn more about [prioritizing visible content](#).

62 / 100 User Experience

Should Fix:

Configure the viewport

Your page does not have a viewport specified. This causes mobile devices to render your page as it would appear on a desktop browser, scaling it down to fit on a mobile screen. Configure a viewport to allow your page to render properly on all devices.

[Configure a viewport](#) for this page.

Size content to viewport

The page content is too wide for the viewport, forcing the user to scroll horizontally. [Size the page content to the viewport](#) to provide a better user experience.

Mobile

The page content is 1,070 CSS pixels wide, but the viewport is only 980 CSS pixels wide. The following elements fall outside the viewport:

- The element `<input id="story" type="text" name="story">` falls outside the viewport.
- The element `<input type="submit">` falls outside the viewport.
- The element `<div class="fixed">Анекдоты...Про Вовочку</div>` falls outside the viewport.
- The element `<div class="widget_title">Еще анекдоты</div>` falls outside the viewport.
- The element `<div class="fixed"></div>` falls outside the viewport.
- The element `` falls outside the viewport.

Use legible font sizes

The following text on your page renders in a way that may be difficult for some of your visitors to read. [Use legible font sizes](#) to provide a better user experience.

The following text fragments have a small font size. Increase the font size to make them more legible.

- АНЕКДОТЫ renders only 8 pixels tall (20 CSS pixels) final.
- НОВОГОДНЯЯ НОЧ...В ДВЕРЬ. ЕМУ... and 19 others render only 8 pixels tall (20 CSS pixels) final.
- Просмотров: and 19 others render only 5 pixels tall (12 CSS pixels) final.
- 17 and 39 others render only 5 pixels tall (12 CSS pixels) final.
- Комментариев: and 19 others render only 5 pixels tall (12 CSS pixels) final.
- — Немногие зна...пока выясняем. and 62 others render only 5 pixels tall (14 CSS pixels) final.
- ПИСАНУТЬ and 19 others render only 7 pixels tall (18 CSS pixels) final.
- : and 19 others render only 5 pixels tall (13 CSS pixels) final.
- Покемоны и Покемон Гоу and 36 others render only 5 pixels tall (13 CSS pixels) final.
- 1 and 18 others render only 8 pixels tall (20 CSS pixels) final.
- ... and 1 others render only 7 pixels tall (18 CSS pixels).
- 2447 and 9 others render only 5 pixels tall (13 CSS pixels).

Mobile

- АНЕКДОТЫ: renders only 8 pixels tall (20 CSS pixels) final.
- Про Вовочку renders only 5 pixels tall (14 CSS pixels) final.
- ЕЩЕ АНЕКДОТЫ renders only 8 pixels tall (20 CSS pixels) final.
- © 2019 renders only 5 pixels tall (12 CSS pixels).

Consider Fixing:

Size tap targets appropriately

Some of the links/buttons on your webpage may be too small for a user to easily tap on a touchscreen. Consider [making these tap targets larger](#) to provide a better user experience.

The following tap targets are close to other nearby tap targets and may need additional spacing around them.

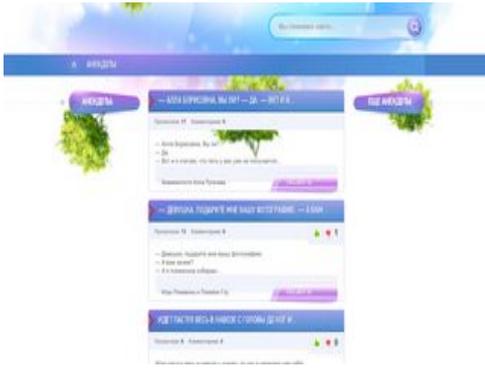

- The tap target `Игры` and 19 others are close to other tap targets final.
- The tap target `2` and 9 others are close to other tap targets.
